Systems Integration | Engineering Design | Technical Consultancy

Delkia is a fast-growing specialist engineering and technology company for safety-related and mission-critical systems in Aerospace, Clean Energy and Maritime sectors.

Our skilled staff provide tried and tested engineering design capability. We employ highly skilled Engineers, Technicians and Support Staff, plus a wide variety of professionals in Accountancy, HR, Marketing and Project Management.

Based in Cumbria and Lancashire, we are a friendly company to work with and invest in our team to ensure we continue to deliver operational excellence for our clients.

Research & Development Opportunities

Delkia's research facility based in Preston is growing rapidly and offers exciting opportunities to develop technologies for future products and services.

We conduct research and development in partnership with several universities and are looking for talented individuals to work on our projects.

Contact us to find out more >

Apprenticeships

We offer a wide range of apprenticeship opportunities from level 2 to degree level in: Business Support, Electrical Engineering and Project Management, for example. We have a wide range of experienced mentors to support you.

Career Opportunities

We are always on the lookout for talented additions to our team, be that working as staff, on a project or contract basis. If you believe you can uphold our reputation, passion for engineering, innovation and have what it takes to keep abreast of one of the fastest changing technological sectors in industry then we want to hear from you.

Graduate Entry – Advance with Delkia

Delkia is a great place for talented engineers to start their career. You will see the whole project life cycle, gain early responsibility, and work with Chartered Engineers who will support and guide you.

Placement Opportunities

If you are still at school or university, we offer placement opportunities to help you find out if a chosen career path is for you.
